

Grimey Dogs PCars update v2.0 FFB Tweek v 009

This Tweek was Made for the ***CSW v2*** ONLY and is Guarenteed to Work Well!!! Put the Settings in exactly as they are!!! Do Not Mix with other Tweeks

This tune Should with other wheels but you will Have to Set the Global FFB, Tire Foce and Set the in Car Masters to Best suite your Wheel

I Use Regular wheel Settings with the DOR set to AUT/OFF and 100% FFB on Wheel... All other Wheel Settings are Stock.

This FFB Tune Should be Tested on a Un-Tuned Car Suspension First then Re Tune car if Needed

These #'s Can be Found By moving the Slider all the way Left or Right until the you get these # Values

Global FFB *** 24*** YES I SAID 24!!! you wont Need More Trust Me

I Set Throttle/Brake Sensitivity to 50

These in Car Setting Work well with Many Diffent Cars Exactly as they are... I Have Not Tested the in Car settings on all Cars My Favorits are the Ruff RGT8 GT3, Mercedes Benz CLK LM, Ginetta Gt3, Renault Clio Cup, Mercedes Benz AMG C Coup DTM, Marek RP 339H LMP1 Just to Name a Few.... I Duggest Test Driving a Few of these Cars Exactly as this Global and In Car FFB Tweek is First before making any Changes.
